**Fax: (573)392-8766**  
**Vendor No. 4313349960 1**

### ALTERNATIVE FUEL VEHICLES

It is well known that the conventional gasoline and diesel-powered vehicles emit hundreds of toxic chemicals and dangerous particles. In fact, motor vehicles are the single largest source of air pollution in the United States. Transportation accounts for more than 50% of air pollution in United States urban areas.

By increasing the use of alternative fuel vehicles (AFVs), we can reduce our demand for imported oil, create new products, jobs, and businesses, and improve air quality by dramatically reducing carbon dioxide emissions as well as the hydrocarbons, nitrogen oxides, and particulate matter that are such major contributors to urban air pollution.

### **STATE CONTRACT PRICES**

**Contract: C103009001**

**Contractor: Capitol City Chrysler-Nissan**

Line Item 001 C/S Code 07007

Mid-Size, 4-Door Sedan, Alternative Fuel (E-85 and Gasoline)

MAKE: 2003 Dodge Stratus

Base Price, Equipped as Specified in Contract: **\$13,097.63**

**Contract: C103010001**

**Contractor: Capitol City Chrysler-Nissan**

Line Item 001 C/S Code 07007

7 Passenger Mini Van, Alternative Fuel (E-85 and Gasoline)

MAKE: 2003 Dodge Grand Caravan

Base Price, Equipped as Specified in Contract: **\$16,984.73**
